Care Coordination

Partnering with you to live
your best life.

What Are Care Coordinators?

A care coordinator is a registered nurse and/or licensed practical nurse who aids patients and families. This care team works closely with patients and their providers to help make and reach health goals.

What does a care coordinator do?

- Builds relationships with patients and their supportive caregivers
- Works with physicians and other healthcare providers in the area
- Promotes health and wellness activities
- Provides patients and families with education and supportive care options
- Helps patients and families understand specific health concerns and treatment plans
- Helps answer questions during sickness and hospitalization as well as during wellness
- Assists in understanding medications and their importance
- Assists in scheduling doctor appointments
- Works closely with patients on their individual healthcare needs and other support issues like assisting with finding transportation

Keeping you at the center of your care.

Online Patient Portal

Take advantage of Centra's user-friendly patient portal, HealthyU. This portal will allow you to stay connected with your healthcare team and access your personal medical information online anytime. HealthyU is a free and secure service available to adults 18 years and older.

Go to CentraHealth.com/HealthyU to access your patient portal.
